DETAILED ACTION

Allowable Subject Matter

- 1. Claims 10,11, and 15 are allowed over the prior art of record.
- 2. The following is an examiner's statement of reasons for allowance:

As per the independent claims, the prior art of record does not explicitly teach the semantic coding section in relation to the morphological analyzing section. Representing typical prior art, Kutsumi et al (5353221) teaches using semantic analysis (Fig. 2, L4) for translation (abstract), including language rules (col. 7 lines 1-35), along with automatically paring a source language sentence with a target language sentence (col. 16 lines 50-55). In that process, however, semantic coding does not interact with the morphological analyzing section as in claims 10 and 15. As per claim 6, Kutsumi et al (5353221) phrase dictionary does not necessarily stored phrases for language comparison or transference, however, McCarley (6349276), teaches language transfer corpus (Fig. 3, Fig. 4) used in a phrase dictionary does not necessarily stored phrases for language comparison or transference, however; McCarley (6349276) does not teach semantic coding does not interact with the morphological analyzing section as in claims 10 and 15. Furthermore it would not have been obvious to one of ordinary skill in the art of language processing at the time the invention was made to modify the teachings of the prior art of record to obtain the recited limitations of the independent claims as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
